

Sinclair
Broadcasting has
announced plans to
preempt their normal
programming with a
show designed to
discredit Democratic
Presidential
candidate John
Kerry.

If this happens, it
would amount to a
private corporation
using public
airwaves to
influence an
election. It should
not be allowed.

Our democracy
depends on fair and
equal access to the
airwaves. If
citizens are
subjected to this
level corporate
propaganda during
elections, it will
undermine the very
foundation of our
civil society.

Please take whatever
actions are
necessary to block
Sinclair
Broadcasting from
showing this
program. Or, if
they do show the
program, please
require that they
provide equal and
comparable time for
a similar program
presenting views of
the other party.

Yours,

Andrew Shalit
